Tailored Solutions for the Dynamic Electronics Industry

The demands of today's fast-paced electronics industry require customized solutions. That's why our range of services in component programming is designed to meet the highest customer requirements with maximum flexibility. We always keep future-oriented needs in mind, such as demand-based delivery without minimum order quantities and packaging units.

We adhere to the highest quality standards, offer short lead times, provide custom packaging, and ensure component marking as well as transparency from goods receipt to delivery. As a full-service provider, we offer logistics solutions tailored to your needs. Our service spectrum is rounded off by efficient procurement management. Relief your supply chain and trust in over 30 years of experience in the electronics industry.

Our Services includes:

√ Fully automated programming tailored to your specific project requirements
√ No minimum order quantities - No packing units
√ 100% Traceability
√ max. Quality Assurance
√ Short Lead times
√ Packing standards Tape&Reel, Tray, Tube
√ Customized marking Service
√ Customized Supply Chain Solutions (Just-in-time, interim storage)
√ Procurement Management

IC-Typs: MCU, NAND/NOR Flash, EEPROM, eMMC, UFS, further IC-types on request

IC-Packages: SOP, SSOP, TSSOP, PLCC, QFN, LQFP, BGA, WLCSP, further packages on request

Packing-Service: Tape&Reel, Tray, Tube

Marking: Color-dot-marking, Labeling, Lasermarking

Best Service for Strong Brands
*overview of some Brands

**TEXAS INSTRUMENTS - GIGADEVICE - MICRON - WINBOND
RENESAS - KINGSTON - MICROCHIP - SANDISK - EPSON
TOSHIBA - INTEL - NXP - NOVATEK - SWISSBIT - FUJITSU**
